Imran Bahelim

Lead Fullstack Developer (Angular | Node.js) | Available Immediately
imrankhan.er01@gmail.com | +91 8788563095 | https://www.linkedin.com/in/imran-bahelim

Professional Summary

Lead Fullstack Developer with 12+ years of experience designing, architecting and delivering **enterprise-scale and SaaS applications** using **Angular (AngularJS–Angular 17+), Node.js, Express.js, and MongoDB**. Proven expertise in **frontend and backend architecture, system design, performance optimization, and secure API development**.

Strong **hands-on technical leader** with experience leading cross-functional teams, defining coding standards, reviewing architecture, mentoring engineers, and acting as a **bridge between business stakeholders and engineering teams**. Extensive domain exposure in **Oil & Gas, BFSI, Insurance, and Telecommunications**, delivering mission-critical systems in Agile environments for global clients.

Technical Skills

- **Frontend**: Angular (AngularJS – Angular 17+), TypeScript, JavaScript (ES6), RxJS-based state management patterns, Angular Material, HTML5, CSS3, Flexbox, Responsive Design, Micro Frontend Architecture, Performance Optimization, Accessibility (WCAG), React.js
- **Backend**: Node.js, Express.js, RESTful API Design & Integration, Authentication & Authorization (JWT, Role-based Access), Error Handling, API Security, Performance Optimization
- **Databases**: MongoDB, SQL (PostgreSQL, MySQL), ODM/ORM: Mongoose
- **Testing & Quality**: Unit Testing (Jasmine, Karma), Code Reviews, Static Code Analysis
- **DevOps & Tools:** GitHub, Jenkins, JIRA, Postman, CI/CD Pipelines, containerization (Docker, Kubernetes), AWS (EC2, S3, Lambda, API Gateway, DynamoDB, SQS, Load Balancer, Auto Scaling)
- **Methodologies**: Agile (Scrum), Product-driven Development, Remote & Cross-functional Collaboration

Work Experience

Capgemini Technology Services India Limited, Pune, INDIA **Jun 2022 – Oct 2025**

Lead Fullstack Developer

Client: Baker Hughes | **Project:** CHOREOGRAPH – Job Planner (Oil and Gas domain)

- Led **end-to-end architecture and development** of a large-scale Angular + Node.js enterprise application used for wireline job planning.
- Defined **frontend and backend architecture**, component standards, folder structures, and reusable design patterns.
- Acted as **technical architect** for Angular applications, ensuring scalability, maintainability, and performance.
- Designed and implemented **secure REST APIs** using Node.js, Express.js, and MongoDB.
- Improved operational efficiency by **~40%** through optimized workflows and UI performance improvements.
- Led **code reviews, design discussions, and architectural decision-making**.
- Mentored junior and mid-level developers, improving overall code quality and delivery speed.
- Served as **primary technical point of contact** for client, product owners, and architects.

Tech Stack: Angular v17, RxJS, Node.js, Express.js, MongoDB, Unit Testing, and Infragistics UI library.

Synechron Technologies Private Limited, Pune, INDIA **Mar 2020 – Jun 2022**

Lead Fullstack Developer

Client: HSBC | **Project:** PGDE - Product Governance Data Engine (Banking & Financial Services domain)

- Recruited specifically as a **Lead IC** to build **banking-grade Angular applications** aligned with HSBC enterprise standards.
- Designed **secure, audit-compliant UI architecture** with role-based access control.
- Led frontend solutioning while collaborating with **business, compliance, QA, and backend teams**.
- Developed a centralized product inventory platform improving documentation governance and traceability.
- Played a key role in **architecture reviews, sprint planning, and technical estimations**.

Tech Stack: Angular v11, RxJS, Node.js, Express.js, MongoDB, HTML5, CSS3, Unit Testing and Typescript.

Persistent Systems Limited, Pune, INDIA **Jul 2017 – Mar 2020**

Frontend Team Lead

Client: IBM | **Project:** Watson Campaign Automation (Telecommunications domain)

- Promoted to **Team Lead** based on consistent high performance.
- Designed and delivered **SMPP-Adapter UI modules** for IBM Watson Campaign Automation.
- Led UI development, task allocation, and quality reviews.
- Improved business efficiency and profitability by **~30%**.

Tech Stack: Angular v8, RxJS, HTML5, CSS3, JavaScript, Typescript, and Web API Integration.

Wipro Limited, Bangalore, INDIA **Sep 2016 – Jul 2017**

Senior Project Engineer (Frontend Development)

Client: US Bank | **Project:** KYC – Know Your Customer (Banking, Financial Services, and Insurance domain)

- Designed and developed frontend modules for **KYC onboarding systems**.
- Reduced customer onboarding and verification time by **~25%**.
- Contributed to compliance-driven, security-focused UI solutions.

Tech Stack: Angular v4, Unit Testing (Jasmine and Karma), HTML, CSS3, JavaScript, Web API Integration.

Sysnocri Private Limited, Ahmedabad, INDIA **Jun 2013 – Apr 2016**

Software Engineer

Started as a junior ASP.NET developer and gradually transitioned into frontend-focused development. Took ownership of daily UI development activities and delivered multiple client-facing web applications appreciated by customers.

Education

Bachelor of Technology, Computer Science from **Ganpat University**, Gujarat

Certifications & Courses

- **Agile Software Development**
  An online non-credit course authorized by University of Minnesota and offered through Coursera.
